VACUUM CLEANERS

CONSUMER TIPS > >

KINDS

1. Suction cleaners: light weight, easy to handle, remove less dirt than motor-driven brush cleaners, best for upholstery, draperies, light rugs with short pile, where dirt is not imbedded deeply.
2. Motor-driven brush cleaners: rotating brushes which loosen dirt, suction carries it off.
3. Brush, vibrator cleaners: vibrator loosens deep dirt, brush loosens dirt, suction carries it off; best for heavy rugs and ground-in dirt; heavy.

(over)

ASK ABOUT:

- 1. Underwriters' Laboratories Label - safety insurance against electrical defects, no guarantee of performance.**
- 2. Adjusting nozzle to rug thicknesses.**
- 3. Ease of operation - will it get under heavy furniture, does it run quietly without vibration.**
- 4. Clearly stated year's guarantee of service.**
- 5. Repair service - is it quick and reliable.**
- 6. Accessories - be sure you can and will use them.**
- 7. Directions for lubrication - follow them.**
- 8. Trying out cleaner in your own home - best test.**
